THE DESIGN COMMITTEE NEEDS YOUR HELP

Will help to make Danville even more beautiful and inviting when the cameras come to town.

We can only go up

The DBA has organized a collaboration to create a detailed inventory of the upper floors in the buildings on Mill Street, to market the downtown area to developers who are interested in downtown’s commercial and residential potential. Two student interns, Ted Mahoney, Bloomsburg University, and Zach Pyle, Penn State University will soon be visiting downtown to get this project underway!

Week of the Young Child

April 11th—17th

The Montour County Advocates for Children, along with the Week of the Young Child Committee, is sponsoring a Treasure Hunt in downtown Danville. The idea is that if any businesses were interested in participating in the “hunt”, a map would be created for families. Families

would visit the businesses and the child would receive a small prize for visiting and showing their map. Just as an example, the Committee has bookmarks available, so, a participating store would give a bookmark to a child. If a store wished to donate something else, then that could be a prize. Stores willing to participate would be identified on the map but also by a poster or kite provided by the Committee. If interested in participating and having your business on the map, please contact Beth Cherwinski 275-5927 or Joanne Blass 275-3996

An Appropriations Request for approximately

\$1,200,000 was submitted by the DBA to Congressman Carney and Senators Casey and Specter for the implementation of the Downtown Danville MasterPlan.

We will advise the membership as we receive more information from their offices.
